Ethical Review Approval

To: Mohammad Amin Waizy, MBA
From: HML IRB
Subject: Study #3074
Date: 02-Sep-2025

Dear Mohammad Amin Waizy, MBA,

The protocol **Evaluation of the project on enhancing sustainable food security and nutrition practices for children and women in Afghanistan, 3074** was assessed through a research ethics review by Health Media Lab Institutional Review Board. This study's human subjects' protection protocols, as stated in the materials submitted, received research ethics review approval on 02-Sep-2025.

You may rely on this IRB for review and continuing ethical oversight of this study. You and your project staff remain responsible for ensuring compliance with the IRB's determinations. Those responsibilities include, but are not limited to: 1) ensuring prompt reporting to HML IRB of proposed changes in this study's design, subject risks, informed consent, or other human protection protocols and providing copies of any revised materials; 2) conducting the research activity in accordance with the terms of the IRB approval until any proposed changes have been reviewed and approved by the IRB, except when necessary to mitigate hazards to subjects; 3) promptly reporting any unanticipated problems involving risks to subjects or others in the course of this study; and 4) notifying the IRB when your study is complete.

The approval of your study is valid through 01-Sep-2026, by which time you must submit a continuing review report either closing the study or requesting permission to continue for another year. Please submit your report by so that the IRB has time to review and approve your report prior to the expiration date. For instructions on how to manage an approved study refer to: [How to Manage an Approved Study](#).

Health Media Lab IRB is authorized by the U.S. Department of Health and Human Services, Office of Human Research Protections (IRB #00001211, IORG #0000850), and has DHHS Federal-Wide Assurance approval (FWA #00001102).
